

Using the Palm OS PDA

For

Wild Horse and Burro Corral Preparation Record

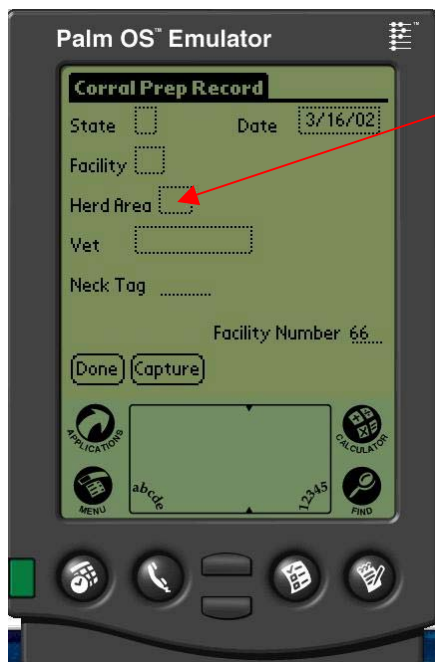

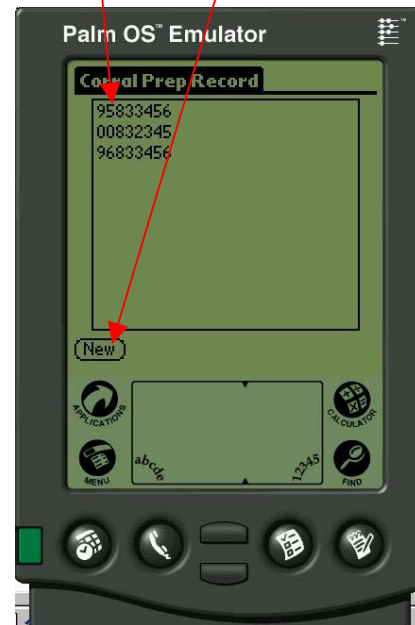

Department of the Interior
Bureau of Land Management
Service Center
P.O. Box 25047
Denver, CO 80225-0047

Instructions for using the Wild Horse and Burro Corral Preparation Program

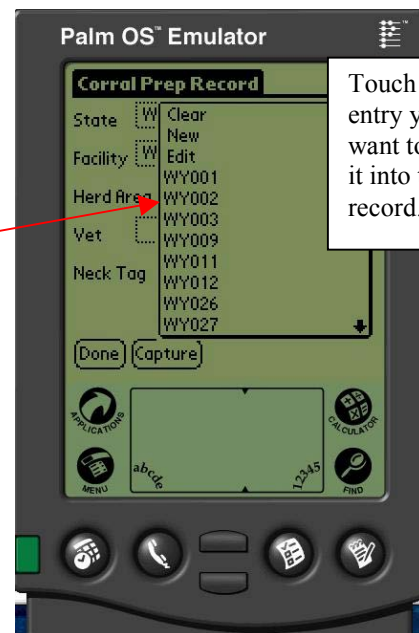

Touch the Icon to start the program.

Select a record to review by touching the freemark number or start a new record by touching New.

Touch the empty box to enter various data. Touching the box brings up a dictionary with all needed data. New data may be added to the dictionary or it may be edited. The first time you bring up a dictionary it will be blank.

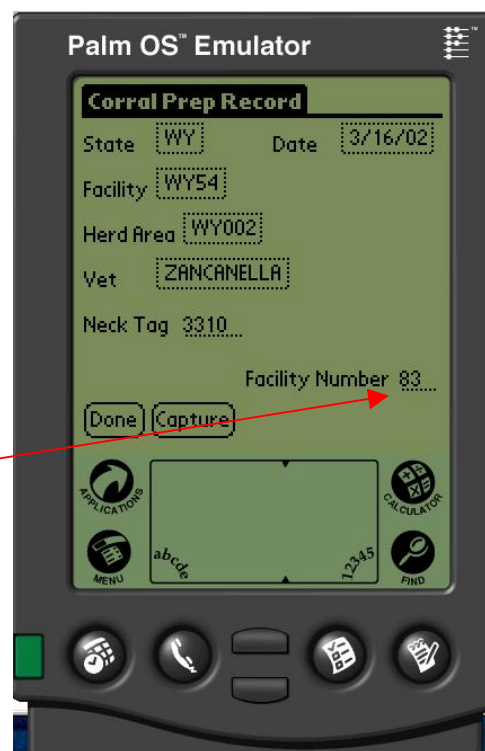

Touch the entry you want to enter it into the record.

Instructions for using the Wild Horse and Burro Corral Preparation Program

This shows the entry screen for adding or editing data in the dictionary.

Enter the data as shown including the necktag number and the facility ID number (second two numbers of the freemark.) when don touch Capture to continue.

APPLICATIONS MENU abcd 12345 FIND

When finished touch yes or no for whether or not the animal will be turned out. If you touch no, the freezemark and signalment key are automatically generated. If you touch yes enter turnout data and you have the option of generating a freezemark and signalment key.

Touching continue here brings up the Vet Screen (next page)

Instructions for using the Wild Horse and Burro Corral Preparation Program

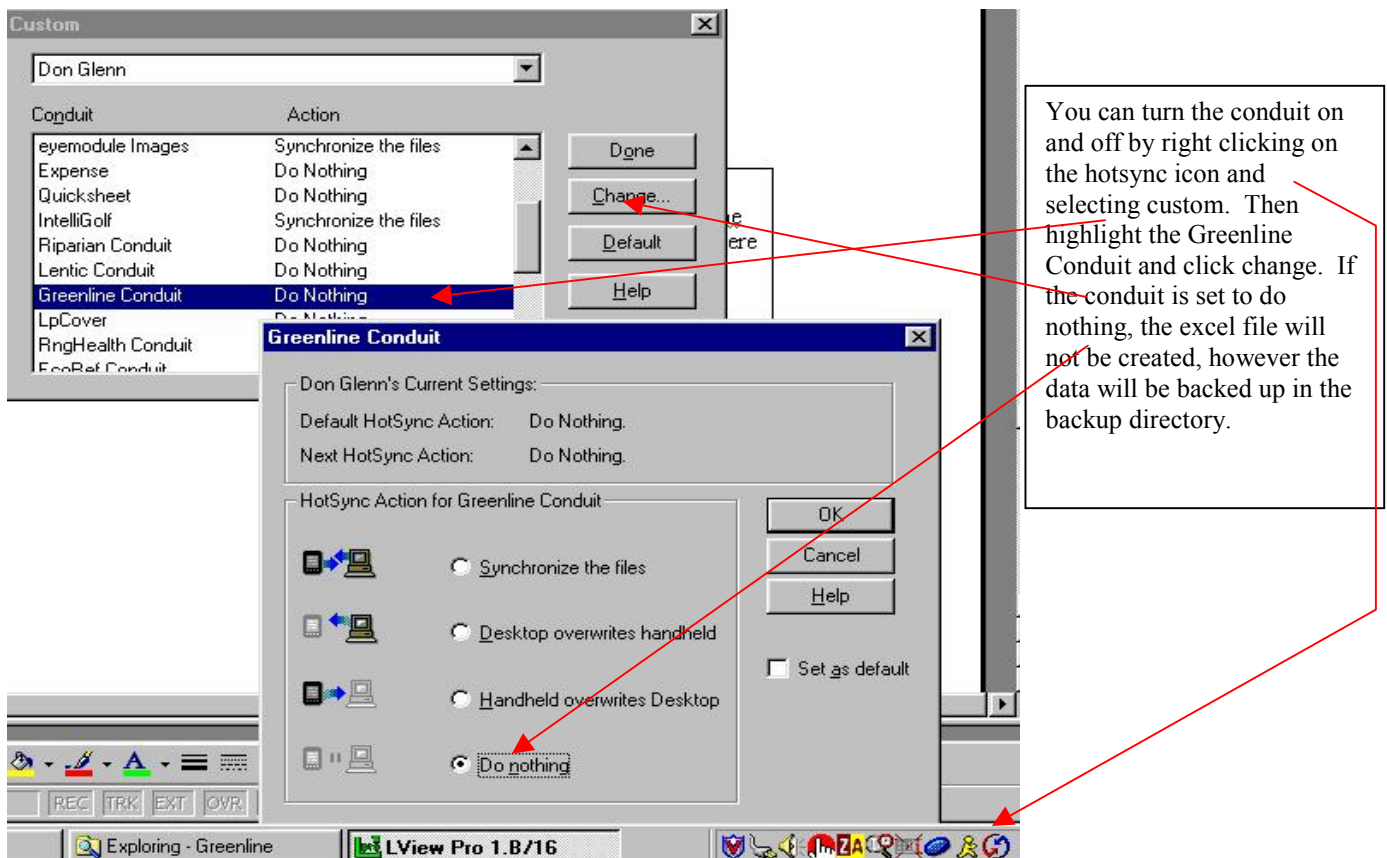

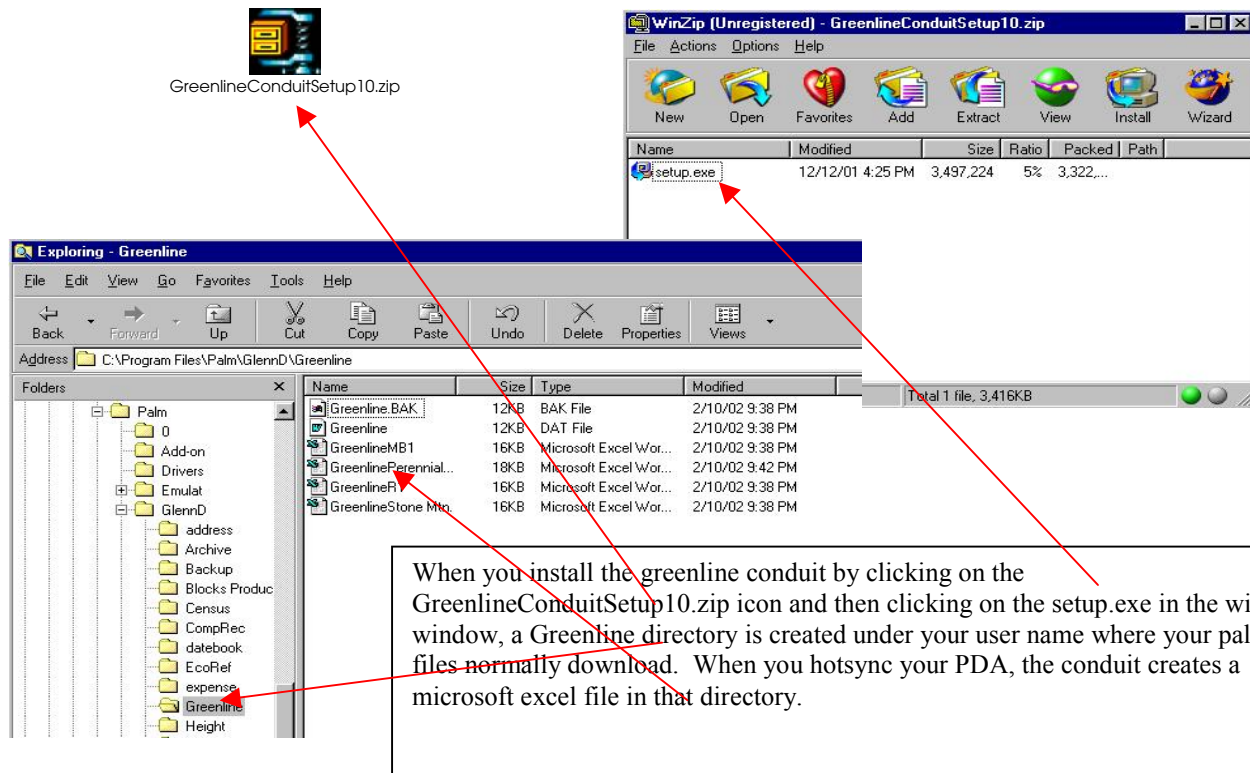

Touching a check box places a checkmark in the box. Touching it again takes the checkmark off. Touching Remarks brings up the remarks screen. A large amount of text can be entered here using graffiti or a portable keyboard.

Instructions for using the Wild Horse and Burro Corral Preparation Program

Downloading the Corral Prep Program works the same as the greenline program shown below except that the excel file will be named corralprep.xls and will be in a corralprep directory.

Instructions for using the Wild Horse and Burro Corral Preparation Program

The program downloads two different Excel files. First, a Health record for each horse ie corralprep96833456.xls (shown below)and second, a list of all horses processed named corralprep.xls. shown on next page.

[illegible]
